

DigitalREG® is the nation's leader in regulatory compliance and loss control solutions. Regulatory expertise combined with cutting edge technology allows DigitalREG® to provide high quality, yet affordable and practical tools to assist businesses in achieving OSHA compliance and lower injury rates. A safer workplace results in lower direct and indirect injury-related costs, improved employee morale, and increased productivity. This all means increased profitability for your business.

Thousands of individual businesses and contractors, insurance companies, insurance brokerages, safety professionals, trade associates, and prequalification entities have utilized the tools and services available through DigitalREG®.

e-Learning Safety Training

DigitalREG® is the leading OSHA training on-line provider for construction, general industry and OSHA Outreach training. With on-demand training courses designed by authoritative experts, DigitalREG® delivers immediate and cost-effective educational solutions that improve your safety, compliance and risk management initiatives by providing:

- 24X7 access to job-critical online training
- Quality instructional content validated by industry experts
- Interactive multimedia courses with instant grading and online certificates
- Affordable corporate Learning Management Systems and custom solutions
- Dedicated customer support, 7-days per week
- "Pay-per-view" pricing, corporate billing and group discounts

Our comprehensive catalog of self-paced, online safety training and certification courses are created for safety managers, safety trainers, construction employees, employees that deal with environmental hazards, and general workforce employees. Courses are available in "pay-per-view" online modules or can be custom packaged for organizations in a hosted Virtual University and flexible Learning Management System (LMS).

Satisfy and standardize all of your compliance training needs without sacrificing valuable time and money. All courses will come with a printable certificate upon successful completion. DigitalREG® currently offers the following online safety training courses:

Small business owners have limited financial and human resources to address regulatory and compliance issues. Many times they don't know where to turn for assistance. DigitalREG® provides high-quality tools and services that are both affordable and effective.

Insurance companies and brokerages value their commercial customers and strive to provide the most comprehensive services possible. DigitalREG® tools and services provide a value-added benefit for these customers. By choosing DigitalREG® as a preferred provider for their commercial accounts, insurance companies and brokerages are able to offer our high-quality tools and services at a budget-friendly price.

Trade associations are always looking for value-added products and services that will benefit their members. By choosing DigitalREG® as a preferred provider for their members, trade and other associations are able to offer our high-quality tools and services at a budget-friendly price.

Corporations and contractor prequalification entities are constantly faced with contractors who are experts at the work they perform, however, do not have the financial and human resources to address the regulatory and safety compliance issues required. Companies are faced with construction and maintenance delays because their contractors cannot successfully complete the prequalification process and run their small businesses at the same time. DigitalREG® tools and services assist contractors with successfully completing their customer's prequalification process allowing the contractor to bid on projects and get to work.
